

Dinosaur Stomp

List of fees

The puppets need at least two people to travel with them. We can bring our own puppeteers, or we can train up locals to perform and mind the puppets. The theropod/smaller dinosaurs need 2 people each to operate them, and the baby sauropod needs 4 people. All big MAMA Productions contractors have working with children's cards, and public liability insurance.

The cost of cartage, airfares or other travel, accommodation, materials and living allowance is extra to the fees listed.

Costs go on a sliding scale as follows

(NB training time for local puppeteers = 1 day. They must be fit and healthy)

They can do up to 4 x 20 minute to half hour walks in one day.
